Programme Description

The ICC Advanced Arbitration Academy, developed by the ICC Institute of World Business Law, is a comprehensive and practice-oriented professional training programme tailored for experienced arbitration practitioners who are interested in pursuing a career as an arbitrator.

Administered over a one-year period, the programme covers the main stages of the arbitration proceedings from an arbitrator's point of view on the basis of a mock case scenario under ICC Arbitration Rules. It will cover issues related to constitution of the arbitral tribunal, jurisdiction of the tribunal, case management, provisional remedies, evidence, hearing, deliberations, award and scrutiny.

The programme includes assignments, group work and eight in-person, mandatory workshops in a range of cities in Asia. The in-person workshops will take place in four cities over two days, approximately every three or four months in countries across Asia.

In each workshop, participants are expected to actively engage in simulations, practical activities and rich discussions with prominent arbitrators, arbitration experts and representatives of the Secretariat of ICC International Court of Arbitration.

The ICC Advanced Arbitration Academy in Asia is limited to approximately 40 participants.
