Angel Aligner International Master Course

Dr. Skander Ellouze

Internationally recognized as a practitioner, educator, researcher, and author, Dr Skander Ellouze remains grounded in his passion for patient care and knowledge-sharing. With expertise spanning Clear Aligners, Lingual Orthodontics, PSL, and Skeletal Anchorage Systems, he's been sharing his knowledge through lectures and courses worldwide.

Dr. Skander Ellouze, as an active member of the International Orthodontic Foundation (IOF) and of the Angel Aligner Scientific Advisory Board. He plays a role in advancing modern orthodontics. His contributions significantly influence the development of clear aligner systems, shaping the contemporary orthodontic landscape.

Dr. Pedro Costa Monteiro

Internationally recognized as a practitioner, educator, researcher, and author, Dr. Pedro Costa Monteiro remains grounded in his passion for patient care and knowledge-sharing. With expertise spanning Clear Aligners and Digital orthodontics, he has been sharing his knowledge through lectures and courses worldwide.

Vice President of the Portuguese Aligner Society (SPAD) and an active member of the European Orthodontic Society (EOS) since 2022, plays a significant role in advancing modern orthodontics. His contributions have significantly influenced the development of clear aligner systems and orthodontic technologies, shaping the contemporary orthodontic landscape. He is also a valued member of the Angel Aligner Scientific Advisory Board since March 2024, continually contributing to the evolution of orthodontic practices.

Come join us for a 4-day Angel Aligner™ International Master Course designed for orthodontic professionals aiming to enhance their practice.

This program includes sessions by renowned orthodontists focusing on cutting-edge techniques.

Participants will explore **innovative approach** to Aligner's orthodontics, from precise diagnosis to creating treatment plans. Esteemed speakers will share tips and insights into the latest advancements.
